Pioneering 101

No pioneering experience required! Learn new skills or maybe brush up on the skills you already have. In this handy session, you'll discover all you need to complete the projects of the day. The competition is open to all!

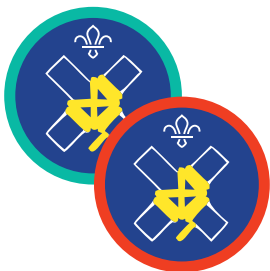

Pioneering Competition 1

As a Team you will build a medium sized project and compete, not just to complete, but to test the effectiveness of your structures!

Pioneering Competition 2

Teams will build a larger scale project. This time, every detail will win the points!

Teams will be provided with all the equipment required to build a project, the details of which will not be revealed until the day!

...and Don't Forget the Badge!

We will provide each competitor with a record of the elements they have covered which count towards the Scout or Explorer Pioneering Activity badge. Please let us know if you require assistance in supporting your young people with completing the badge.

Please follow the link to complete the form on
or before 30th June to register your teams
